The main content area contains several sections:

- Note**: A list of bullet points:
 - Ho sostituito l'ultimo carattere con un carattere di meno
 - Ho usato la funzione `substr()`
 - Il resto è stato fatto con `str_replace()`
 - Fanno lo stesso
- Esempio**: A code snippet in PHP:

```
<?php
$url = "http://www.rebrandly.com";
$host = parse_url($url, PHP_URL_HOST);

```
- Spiegazione**: A list of bullet points:
 - `parse_url()` è una funzione PHP che prende un URL e lo divide in vari componenti
 - `PHP_URL_HOST` è una costante che indica il nome del host
- Altri esempi**: A section with a small image of a person's face.
